

Pacific Power Home Energy Savings Program – Washington Participating Contractors

Below is a list of insulation and window contractors participating in Pacific Power's Home Energy Savings program. This list is provided solely as a convenience to our customers.

Pacific Power does not warrant, endorse or guarantee the work performed by these contractors, and you are solely responsible for any contract or agreement made with a Participating Contractor and the performance of any work by a Contractor.

NOTE TO CUSTOMERS: In order to process your incentive application, receipts should clearly indicate square footage for each area, insulation type and R-values for insulation. Window documentation should clearly state the number of windows, window type and dimensions of each window. A copy of NFRC sticker must be included for **each** window submitted for incentive. Proof of payment (copy of cancelled check or charge receipt) is required.
